

Rock & Glow

Light Up the Clubhouse!

From its inception, the Club Auto Sport founders had a vision for their passion to also touch the lives of our youth and tickle their interest in cars. "It's a part of The Wheel at Club Auto Sport. I love it when the guys and gals get their iPhones out and Snapchat themselves beside one of our cars" says co-managing member John Davis.

Attracting our youth – this sleek, chic and unique venue has one more far-sighted success story to tell! Prom, Graduation, and

Winter Ball season have been booked every weekend for the last four very successful years, and next year's dates are rapidly being swept up by local high schools. This season alone over 1800 young people have rocked the clubhouse with excitement. The club's rare and exotic cars are a great backdrop for the golden moments capturing our teens in their elegant long dresses and stylin' tuxedos.

Why so popular? The testimonials have ranged from lengthy rave reviews – to bullet point facts. All being **positive vibes** and validating a **positive, safe space** for young adults celebrating their Winter Balls, Proms, and personal Graduation parties. Formal and informal; we have had them all. Our wide open clubhouse is a perfect canvas for students to showcase their decorating freedom of expression to add some horsepower to their sensational experience. Some of the lighting effects alone make you feel the glamour & glitz of Hollywood right here on the Silicon Valley scene.

Lots of room to dance... wow do they love to move to the tunes! School administrators and parents love Club Auto Sport for its security, single level crowd control, built-in décor (making the events less expensive than hotels or banquet halls). And speaking of hotels... the lack of hotel rooms also minimize the teens opportunities to experiment with alcohol, drugs and adult activities. The staff at Club Auto Sport values the innocence, innovation and humor of our young people. We want to thank all the high schools and parents for planning and organizing private grad parties. Club Auto Sport is happy to deliver a safe and exhilarating experience!

Drive Safe – Congratulations High School Rocks!
